Comments:

Anyone looking to increase traffic and in turn sales in their business should seriously consider advertising on the Kroger register tape. Our business (GNC) was in a steady decline due to road construction, competition stores, and then the economy issues. When the new Kroger opened in our area we decided to run an ad to get our people back and within weeks we were receiving 10-25 coupons a week. That got us thru some difficult times and after running the ad for a year...first time customers who “didn’t know you were here” have become regulars. They even tell their friends about the coupons. People are looking for coupons now and the Kroger tape is the BEST form of advertising we have ever done.
